## Using the power of leading-edge science to save and improve lives around the world

For more than a century, we've been at the forefront of research, bringing forward medicines, vaccines and innovative health solutions for some of the world's most challenging diseases.

At Merck, we rise to the challenge in pursuit of better health outcomes.

# Exclusive offer for registered delegates! Offre exclusive aux congressistes inscrits!

Unable to attend either of these sessions? You'll be able to access them online in June for free.  
Vous n'êtes pas en mesure d'assister à l'une de ces séances? Vous pourrez y accéder en ligne sans frais.

## CPS Position Statements and Practice Points Lecture

### Conférence sur les documents de principes et les points de pratique de la SCP

Charlotte Moore Hepburn, MD and Sam Wong, MD

## CPS President's Lecture and Awards for Excellence

### Conférence du président de la SCP et prix d'excellence

#### The impact of COVID-19 on child and youth mental health

Tracy Vaillancourt, MD

## Goldbloom Journal Club | Club de lecture Goldbloom

Isabelle Chevalier, MD and Jill Borland-Starkes, MD

## Paediatric Update and Closing | Mise à jour en pédiatrie et cloture

Beth Cummings, MD, Santana Lee, MD and Christina Atkinson, MD

### Seminars | Séminaires

#### **1A** Iceberg ahead! The evolving presentation and diagnosis of celiac disease in Canadian children

– Mohsin Rashid, MD and Michelle Wiepjes, MD

#### **1C** Tricky tickers 2.0: Finding heart disease in the haystack of less specific symptoms

– Laurent Desjardins, MD and Aisling Young, MD

#### **1G** Update in paediatric migraine treatment

– Marissa Lagman, MD and Serena Orr, MD

#### **2A** What is new in infectious diseases in 2023?

– Jesse Papeburg, MD and Joan Robinson, MD

#### **3D** Syphilis and HIV, oh my! An approach to the exposed newborn

– Santana Lee, MD and Jared Bullard, MD

All attendees will receive a certificate  
All subscribers will receive an email with the link and enrollment key to access.

Tous les congressistes recevront un certificat.  
Tous les abonnés recevront un courriel leur fournissant un lien et le code d'inscription pour y accéder.

 Session highlights CPSP research | Séance sur les faits saillants des recherches du PCSP.

**Friday, May 26 | Le vendredi 26 mai**

**1200-1330**

**CDS-01 Cow's milk protein allergy: From diagnosis to management**

This session will provide an overview of food allergies with a focus on cow's milk protein allergy (CMPA), and how to identify an IgE and non-IgE cow's milk protein allergy. In addition, it will cover the importance of clinical history and the use of appropriate tests to confirm diagnosis. The session will also discuss nutritional strategies to manage CMPA based on clinical guidelines.

Speakers | Conférenciers : *Nikhil Pai, MD, Douglas Mack, MD*

*This program was co-developed with Abbott and was planned to achieve scientific integrity, objectivity and balance. | Le présent programme a été élaboré conjointement avec Abbott et de manière à respecter les principes d'intégrité, d'objectivité et d'équilibre scientifiques.*

**CDS-02 A strained system: The landscape of pneumococcal disease serotypes and pneumococcal conjugate vaccines in Canadian paediatrics**

This session will review and discuss the state of affairs for pneumococcal disease in healthy and high-risk Canadian children, including burden of disease and associated prophylaxis. Prominent disease-causing serotypes/strains will also be discussed, in addition to the successes and remaining unmet needs in mitigating pneumococcal disease through immunization for Canadian children.

Speakers | Conférenciers : *Scott Halperin, MD, Shaun Morris, MD*

*This program was co-developed with Merck Canada Inc. and was planned to achieve scientific integrity, objectivity and balance. | Le présent programme a été élaboré conjointement avec Merck Canada Inc. et de manière à respecter les principes d'intégrité, d'objectivité et d'équilibre scientifiques.*

**CDS-03 Bridging barriers – Recognizing and managing the diverse faces and pain points of paediatric atopic dermatitis**

This presentation will summarize the epidemiology of atopic dermatitis in children and the multidimensional disease burden on patients and caregivers using real patient cases and recent literature. We will address challenges and opportunities in current management and treatment options using the latest data on advanced therapies for atopic dermatitis in all children. The diverse faces of atopic dermatitis will be highlighted throughout the presentation using clinical photographs and directed description of high yield features to optimize recognition of atopic dermatitis.

Speakers | Conférencières : *Marissa Joseph, MD, Michele Ramien, MD*

*This program was co-developed with Sanofi, Dermatology and was planned to achieve scientific integrity, objectivity and balance. | Le présent programme a été élaboré conjointement avec Sanofi, Dermatologie et de manière à respecter les principes d'intégrité, d'objectivité et d'équilibre scientifiques.*

**Saturday, May 27 | Le samedi 27 mai**

**0715-0845**

**CDS-04 'B' the change you want to see: Updating the narrative on MenB**

This session will highlight the tragic events of the last 20 months in Nova Scotia and examine the impact of outdated scientific information and access barriers on patients and their families. The session will build upon the 2022 Grand Rounds presentation, educating attendees on all the new evidence that has been generated since the first MenB recommendation came out in 2014. A discussion will explore how this updated information can be used to support conversations with patients and their families. The discussion will provide an opportunity to uncover ways of supporting and optimizing health care provider-patient MenB conversations.

Speakers | Conférencières : *Jeannette Comeau, MD, Shelly McNeil, MD*

*This program was co-developed with GSK and was planned to achieve scientific integrity, objectivity and balance. | Le présent programme a été élaboré conjointement avec GSK et de manière à respecter les principes d'intégrité, d'objectivité et d'équilibre scientifiques.*

**1200-1330**

**CDS-05 Evolution of allergic rhinitis in children and teens: Growing options for allergy immunotherapy**

Allergy immunotherapy (AIT) is the only identified disease-modifying therapy for treatment of allergic rhinitis (AR). It has been used in clinical practice for more than 100 years as subcutaneous injections. Recent clinical trials of sublingual formulations have demonstrated safety and efficacy in the paediatric population. This session will discuss both AR medical treatment and immunotherapy options and discuss the implications for practice.

Speakers | Conférenciers : *Amiirah Aujnarain, MD, Douglas Mack, MD*

*This program was co-developed with ALK and was planned to achieve scientific integrity, objectivity and balance. | Le présent programme a été élaboré conjointement avec ALK et de manière à respecter les principes d'intégrité, d'objectivité et d'équilibre scientifiques.*

**CDS-06 Respiratory Syncytial Virus (RSV) burden of disease in infants: A need for all-infant protection**

RSV is a leading cause of acute lower respiratory tract infections and hospitalizations in all infants. But these hospitalizations are only the tip of the iceberg, since RSV is also responsible for substantial outpatient disease burden among children. Currently, there is no treatment or RSV preventive option for all infants. To substantially reduce RSV infections, there is a need for all-infant protection.

Speakers | Conférencières : *Jesse Papenburg, MD, Joanne Langley, MD*

*This program was co-developed with Sanofi, Vaccines and was planned to achieve scientific integrity, objectivity and balance. | Le présent programme a été élaboré conjointement avec Sanofi, Vaccins et de manière à respecter les principes d'intégrité, d'objectivité et d'équilibre scientifiques.*

# 100 years of innovation in allergy treatment

What we do today defines the moments of tomorrow

# 100 ans d'innovation dans le traitement des allergies

Ce que nous faisons aujourd'hui définit le monde de demain

### CPS Birthday Bash

**Thursday, May 25 – 1715-1830**

Convention Hall, Halifax Convention Centre

### Developmental Paediatrics Section Dinner

**Thursday, May 25 – 1800**

McKelvie's Restaurant, 1680 Lower Water Street

**Tickets must be purchased in advance.**

Cost (includes 3-course meal and gratuity + tax):

- Section members and guests - \$75/person
- Trainee (medical student/resident/fellow) - \$25/person
- Child (children's meal - 12 and under) - \$15/child

### Distinguished Community Paediatrician Award Dinner

**Thursday, May 25 – 1830**

5 Social, 1740 Argyle Street

**Tickets must be purchased in advance.**

Cost: \$75/person + tax

### Emerging Leader in Neonatology Award Dinner

**Thursday, May 25 – 1830**

Café Chianti, 1209 Marginal Road

**Tickets must be purchased in advance.**

Cost: \$100/person + tax

### Maritime Kitchen Party

**Friday, May 26 – 1900**

Canadian Museum of Immigration at Pier 21,  
1055 Marginal Road

**Transportation provided.**

Buses depart the Halifax Convention Centre at 1845.

**Tickets must be purchased in advance.**

Cost: \$100/person + tax

### Fête d'anniversaire de la SCP

**Le jeudi 25 mai de 17 h 15 à 18 h 30**

Hall du centre des congrès, Centre des congrès de Halifax

### Repas de la section de la pédiatrie du développement

**Le jeudi 25 mai à 18 h**

Restaurant McKelvie's, 1680, Lower Water St.

**Le billets doivent être achetés d'avance.**

Coût (qui inclut le repas de trois services et le pourboire + taxes)

- Membres de la section ou leurs invités – 75 \$ par personne
- Stagiaire (étudiant en médecine, résident ou fellow)  
– 25 \$ par personne
- Enfant (menu pour enfants de 12 ans ou moins)  
– 15 \$ par enfant

### Banquet du prix d'excellence en pédiatrie communautaire

**Le jeudi 25 mai à 18 h 30**

5 Social, 1740, Argyle St.

**Le vendredi 26 mai à 19 h**

Musée Canadienne de l'immigration au Quai 21,  
1055, Marginal Rd.

**Le transport sera fourni.**

Les autobus quittent le centre des congrès de Halifax à 18 h 45.

**Le billets doivent être achetés d'avance.**

Coût : 100 \$ par personne + taxe

**COMPLETE, BALANCED NUTRITION<sup>®</sup>  
WITH A TASTE KIDS LOVE**

**ALIMENTATION COMPLÈTE ET ÉQUILIBRÉE<sup>®</sup>,  
ET UN GOÛT QUE LES ENFANTS ADORENT**

PediaSure<sup>®</sup> is clinically proven to help kids grow.<sup>†</sup>

PediaSure<sup>®</sup> aide les enfants à grandir, selon une étude clinique<sup>†</sup>.

<https://nutrition.abbott/ca/en/child>

<https://nutrition.abbott/ca/fr/enfants>

<sup>†</sup> Clinically shown to help children aged 3-4 grow out of at-risk weight percentiles in 8 weeks when given 2 servings/day in conjunction with dietary counselling. The Canadian formulation differs slightly from the PediaSure<sup>®</sup> used in the study.

Une étude clinique a montré qu'en 8 semaines PediaSure<sup>®</sup> aide les enfants âgés de 3 à 4 ans à ne plus présenter un poids à risque lorsqu'il est donné à raison de 2 portions par jour et combiné à des conseils en matière d'alimentation. Le produit vendu au Canada diffère légèrement de la préparation PediaSure<sup>®</sup> utilisée dans l'étude.

## Have a coffee on the CPSP OR enter for a chance to win the latest iPad mini.

Are you a CPSP participant?

Are you eligible to enroll in the CPSP?

(certified paediatrician or paediatric subspecialist in active practice)

Drop by the CPSP table in the Rendezvous CPS area on Thursday and Friday, located in the Convention Hall.

1. Confirm that your CPSP reporting is up-to-date

OR

2. Enroll as a new CPSP participant

AND

Receive a \$5 Starbucks gift card

OR

Enter for a chance to win the latest iPad mini.

(eligible to delegates who visit and fulfill criteria 1 or 2 above)

## Buvez un café à la santé du PCSP OU courez la chance de remporter le nouveau iPad mini!

Participez-vous au PCSP?

Êtes-vous admissible à participer au PCSP?

(pédiatre certifié ou pédiatre subsécialisé en pratique active)

Jeudi ou vendredi, passez à la table du PCSP au point de rencontre de la SCP situé dans le hall du congrès.

1. Confirmez que vos déclarations au PCSP sont à jour

OU

2. Inscrivez-vous comme nouveau participant au PCSP

ET

Recevez une carte-cadeau de 5 \$ de Starbucks

OU

Courez la chance de rapporter le nouveau iPad mini.

(admissible aux congressistes qui respectent les critères 1 ou 2 ci-dessous)

# WHAT SCIENCE CAN DO

---

At AstraZeneca, we believe in the power of what science can do in transforming care of serious diseases like heart disease, diabetes, and a broad range of respiratory illnesses, including asthma, chronic obstructive pulmonary disease (COPD), influenza, respiratory syncytial virus (RSV) and COVID-19.

AstraZeneca is proud to support the 2023 Canadian Paediatric Society Annual Conference as part of our commitment to protect high-risk infants from Respiratory Syncytial Virus (RSV).

...

# CE QUE LA SCIENCE PEUT ACCOMPLIR

---

Chez AstraZeneca, nous croyons que la science a le pouvoir de transformer les soins offerts en cas de maladies graves, comme les maladies cardiaques, le diabète et diverses affections respiratoires, dont l'asthme, la maladie pulmonaire obstructive chronique (MPOC), la grippe, l'infection par le virus respiratoire syncytial (VRS) et la COVID-19.

AstraZeneca est fière de commanditer le congrès annuel 2023 de la Société canadienne de pédiatrie et d'afficher ainsi sa détermination à protéger les nourrissons à haut risque contre le virus respiratoire syncytial (VRS).

Thursday, May 25 | Le jeudi 25 mai

### Poster Session #1 | Séance d'affiches n° 1

#   n°	Abstract Title   Titre de la communication	Presenter   Présentateur
<b>Adolescent Medicine   Santé de l'adolescence</b>		
1	Youth experiencing homelessness presenting to an urban paediatric emergency department: A descriptive study	Amelie Lachance-Soulard
2	Excessive exercise among youth with a new diagnosis of restrictive eating disorder before and during the COVID-19 pandemic	Holly Agostino
3	Implementation of family-based treatment principles in the primary care management of paediatric anorexia nervosa	Holly Agostino
4	Adolescents identifying their barriers to access mental health and addiction services in a small rural Canadian town	Olivia Ortiz-Alvarez
<b>Bioethics   Bioéthique</b>		
5	The relationship between national paediatric research funding and health outcomes in Canada	Analyssa Cardenas
<b>Cardiology   Cardiologie</b>		
6	Evaluation of a standardized Kawasaki disease protocol for management and follow-up	Rachael Iseman
<b>Child Maltreatment   Maltraitance des enfants</b>		
7	Ethical dilemmas faced by health care professionals when considering a report to child protection: Experiences and perspectives from a tertiary paediatric centre	Clara Low-Decarie
<b>Clinical Pharmacology and Toxicology   Pharmacologie clinique et toxicologie</b>		
8	Characterizing opioid overdose deaths in children (COODC) study	Katrina Assen
<b>Community Paediatrics   Pédiatrie communautaire</b>		
9	"The child's voice:" Perceptions of health care systems for children aged 8-12 referred for neurobehavioral concerns: A focus group study	Ryan Schatz
10	Paediatricians' awareness of Canadian screen time guidelines, perception of screen time use and counseling during the COVID-19 pandemic	Kiersten Amos
<b>Complex Care   Soins complexes</b>		
11	Experiences of inpatient health care services among children with medical complexity: A scoping review	Lauren Asaad
12	What is the evidence? Gastrojejunal (GJ) tubes for children: A scoping review	Esther Lee
<b>Critical Care Medicine (ICU)   Soins intensifs (USI)</b>		
13	"Don't want to be in the room? Never. Can't be in the room? Yes:" A mixed methods analysis of barriers and facilitators to parental presence at the bedside in a paediatric intensive care unit	Emily Poole
<b>Developmental Paediatrics   Pédiatrie du développement</b>		
14	Comorbidities affecting children with autism spectrum disorder: A retrospective chart review from the main referral site for ASD evaluation in Manitoba	Jessy Burns
15	Parent and clinician perspectives on acceptability of paediatric autism therapies	Melanie Penner
16	Autistic perspectives on the acceptability of paediatric autism therapies	Melanie Penner
17	Caregiver mental health needs in caregiver-medicated early intervention	Melanie Penner
18	Exploring caregiver perspectives on acceptance and commitment therapy and application to early intervention for young autistic children	Melanie Penner
19	Characterization of neurodevelopmental comorbidities within a paediatric population with a first epileptic seizure	Bertrand Leduc
20	Developmental outcomes of a cohort of preschool children requiring craniosynostosis surgery in Manitoba	Yael Ripstein

## Poster Presentations | Séances d'affiches

#   n°	Abstract Title   Titre de la communication	Presenter   Présentateur
21	Cross-sectoral care for transitional aged youth (TAY) with autism spectrum disorders and intellectual disabilities (ASD/IDD)	Elizabeth Young, Shanthiya Nallathamby
22	Families' experiences with autism service navigation and mobile application-based support	Elizabeth Young, Thivia Jegathesan
23	Association between autism spectrum disorder and parental immigration among a cohort of preschool children in Manitoba	Ryan Phung
<b>Epidemiology   Épidémiologie</b>		
24	Characteristics and outcomes of hospitalized children by SARS-CoV-2 lineage: An IMPACT surveillance network analysis	Daniel Farrar
25	Severe and life-threatening opioid, stimulant and sedative use in Canadian youth: A one-time survey of paediatricians and paediatric subspecialists	Matthew Carwana
<b>Equity   Équité</b>		
26	How are we addressing health equity in the paediatric tertiary care setting: An environmental scan of approaches across Canada	Juliette St. Georges
27	EDI practices amongst academic leaders at a tertiary paediatric centre	Natasha Johnson
28	Lost in translation: Canadian paediatric resident education and practice of clinical translation services	Sarah Peters
29	Assessing paediatric trainees' confidence in providing culturally responsive care to patients	Anna Chen, Zachary Blatman
30	Promoting child and youth rights literacy and the United Nations' Convention on the Rights of the Child (UNCRC) for equity-deserving populations: A multi-partner, mixed methods pilot study	Sanya Grover
<b>Gastroenterology and Nutrition   Gastroentérologie et nutrition</b>		
31	Iron deficiency in formula-fed very preterm infants: Do we need to revise recommendations for iron supplementation?	Satvinder Ghotra
32	Risk factors for iron deficiency in formula-fed very preterm infants: A population-based study from Nova Scotia	Satvinder Ghotra
33	Gluten-free diet knowledge and adherence in adolescents with celiac disease: A cross-sectional study	Katherine Pohoreski
<b>Global Child and Youth Health   Santé des enfants et des adolescents dans le monde</b>		
34	Using spatial analysis to identify access to IFHP-registered paediatric providers in Ontario	Kawmadi Abeytunge
35	Estimating the impact of pregnancy and childbirth interventions coverage on neonatal survival during the COVID-19 pandemic in Nepal	Dinesh Dharel
36	Quality Improvement integrated Kangaroo Mother Care (QIKMC) – Development with evidence-based practice for improving quality (EPIQ) to improve learning and implementation	Doug McMillan
<b>Hospital Paediatrics   Pédiatrie hospitalière</b>		
37	Improving bronchiolitis management at BC Children's Hospital: Standardizing care through a pre-printer order	Riley Chen-Mack
38	Key to success to improve best practices: A nurse champion to increase institutional use of procedural pain and distress management strategies	Evelyne D. Trottier
39	How is paediatric inpatient care in Canadian hospitals structured to respond to the needs of children with medical complexity?	Sadaf Ghanbari Miandoab
40	Analgesia in sickle cell disease: Do we give the right dose? A systematic review of pharmacokinetic study	Ann-Sophie Czech
41	Evaluating immunization status and barriers to immunization for patients admitted to the Stollery Children's Hospital	Brittany Lissinna
42	Enacting meaningful change in the face of adversity – Use of a sentinel event to pilot the creation of a rapid response system in a tertiary paediatric care centre	Hajare Iraqi
43	Far from home: The impact of geographic distance from tertiary paediatric hospitals on family expenses and experiences	Asia Van Buuren

## Poster Presentations | Séances d'affiches

#   n°	Abstract Title   Titre de la communication	Presenter   Présentateur
44	Ceftriaxone prescribing patterns in an outpatient hospital setting: A quality improvement study	Kimberly Wong
45	Variation in the management of hospitalized children with orbital cellulitis over ten years	Emily Nguyen
<b>Infectious Diseases   Infectologie</b>		
46	Association of empiric antibiotic selection on clinical outcomes in hospitalized children with severe orbital infections: A multicentre cohort study	Emily Nguyen
47	Clinical approach to febrile urinary tract infections in young children presenting to the paediatric emergency department: A retrospective study of national guideline compliance	Frances Morin
48	Congenital syphilis in Canada: Findings of a Canadian Paediatric Surveillance Program study 	Jared Bullard
49	Systematic review and meta-analysis of SARS-CoV-2 vaccine acceptance in parents of children aged 5-11	Shaun K. Morris
50	New analysis on the cost-effectiveness of palivizumab (PVZ) for the prevention of severe respiratory syncytial virus (RSV) infection in Canadian infants born 29-31 and 32-35 weeks' gestational age (wGA)	Bosco Paes
<b>Clinical Case Reports   Rapports de cas cliniques</b>		
C01	Case presentation: Acute genital ulceration in a 15 year-old girl	Alyssa Smith
C02	Complicated sinusitis in an adolescent swimmer in the COVID-19 pandemic: An unexpected microbial player	Kawmadi Abeytunge
C03	Late presentation of radial nerve palsy secondary to extravasation of peripherally inserted catheter in neonate: What paediatricians need to know	Mariam El-Serafi
C04	Vascular Ehlers-Danlos syndrome in the paediatric population: A case report of an internal bleed caused by ruptured pseudoaneurysm	Nour Alkindi
C05	Coccobacillary meningitis and septic embolic infarcts in an ex-preterm infant: An unexpected pathogen	Karina Burke
C06	 A 5 year-old with headbanging and hemiparesis	Jessica Foulds

## Poster Session #2 | Séance d'affiches n° 2

<b>Mental Health   Santé mentale</b>		
51	Mental health trajectories of children and caregivers who accessed school-based health centres during the COVID-19 pandemic	Saisujani Rasiah
52	An evaluation of satisfaction with emergency department care in children and adolescents with mental health concerns	Conné Lategan
53	Adolescent dialectical behaviour therapy: Levels of care	Olivia MacLeod
<b>Neonatal-Perinatal Medicine   Médecine néonatale et périnatale</b>		
54	Preterm parents identified meaningful outcomes: Involving parents in implementing change	Annie Janvier
55	Milk expression habits in maternal milk donors: Should we favor hindmilk banking for extremely preterm infants?	Annie Janvier
56	Survival and long-term outcomes of children who survived after end-of-life decisions in the NICU	Béatrice Boutilier
57	Butterflies and ribbons: The positive impact of educational strategies to optimize communication with parents after the perinatal loss of a co-twin	Béatrice Boutilier
58	Predicting and preparing for the future: Parents of extremely preterm infants give recommendations to clinicians	Émilie Thivierge
59	Pulmonary important outcomes in extremely preterm infants: Parental perspectives	Émilie Thivierge
60	NICU manager's perception of high unit activity and its association with patient care in the neonatal intensive care unit	Carla Herman
61	Antibiotic resistant patterns of bacterial pathogens causing invasive neonatal infections in northern Alberta	Adrien Lam
62	Neurodevelopmental outcomes following preterm prelabour rupture of membranes versus spontaneous preterm birth among infants born at <29 weeks of gestation	M. Florencia Ricci

## Poster Presentations | Séances d'affiches

#   n°	Abstract Title   Titre de la communication	Presenter   Présentateur
63	Repeated administration of sucrose in hospitalized preterm infants and neurodevelopment at 18 months	Marsha Campbell-Yeo
64	Consensus practice recommendations regarding parental presence in Canadian NICU's to inform ongoing and post-pandemic policies	Marsha Campbell-Yeo
65	Outcomes of neonates admitted to the NICU during the COVID-19 pandemic: Comparison with a pre-pandemic cohort	Marsha Campbell Yeo
66	Association of the low hemoglobin at birth and neurodevelopmental outcomes in preterm neonates < 29 weeks' gestation: A retrospective cohort study	Mohamed Elkhoul
67	Infant health status impacts the neutrophil phenotypes and poly-unsaturated fatty acids composition in human milk	Rana Badewy
68	Multimodal monitoring of hemodynamics in extremely low birth weight preterm infant in a Canadian tertiary level unit: Non-blinded randomized control trial-MUSE Trial	Renjini Lalitha
69	A population-based study of parent-reported health outcomes at preschool age of children born very preterm	Sydney MacDonald
70	Purpose built catheters for minimally invasive surfactant therapy – Experience from a Canadian tertiary level neonatal intensive care unit	Soume Bhattacharya
71	Trends, practice patterns, and opportunities for improvement in postnatal steroids use for bronchopulmonary dysplasia - Eleven years observational study	Uthaya Kumaran Kanagaraj
72	Criteria for discharge preterm infants in Canadian neonatal intensive care units	Walid El-Naggar
73	Milking of the cut-cord during stabilization of very preterm infants: A randomized controlled trial (The MOCC Study)	Walid El-Naggar
<b>Oral Health/Dentistry   Santé buccodentaire</b>		
74	"Dental care for children with disability is not considered essential care:" Perspectives of parents and dentists	Magdalena Jaworski
<b>Paediatric Emergency Medicine   Médecine d'urgence pédiatrique</b>		
75	Factors that influence parental decision-making regarding analgesia for their children with musculoskeletal injury-related pain: A qualitative study	Manisha Bharadia
76	Injury-related paediatric emergency department visits during the first 2 years of the COVID-19 pandemic	Emilie Groulx-Boivin
77	Qualitative needs assessment of child and caregiver perspectives to inform design of an artificial intelligence-enhanced social robot to improve paediatric emergency care	Summer Hudson
78	Nitrous oxide use for children experiencing painful procedures: A survey of Canadian paediatric emergency physicians' knowledge, attitudes, and practices	Summer Hudson
79	Exploring wayfinding challenges in the paediatric emergency department using a human-centred design approach	Yina Shan
80	Family caregiver emotional and communication needs in Canadian paediatric emergency departments	Claudia Maki
81	A snapshot of entrustability of acute care procedural skills in paediatrics residents	Karen Forward
82	Management of very severe iron deficiency anemia: Is transfusion always necessary?	Matthew Speckert
83	Success of amoxicillin oral challenges in children at low risk of allergy requiring antibiotic in the emergency department	Camille Gervais
<b>Paediatric Hematology/Oncology   Hématologie et oncologie pédiatrique</b>		
84	Late-onset anemia in neonates with a positive direct Coombs test: a retrospective descriptive study	Arnaud Tremblay
85	Incidence of intravenous immunoglobulins related adverse events in children	Mathilde Chaloult-Lavoie
86	Incidence of pulmonary thromboembolism in Canadian children: A 3-year national surveillance study	Lily Ramsay
<b>Paediatric Surgery   Chirurgie pédiatrique</b>		
87	Infant malrotation with midgut volvulus presenting in the paediatric emergency department or the neonatal intensive care unit: A retrospective review for a quality improvement initiative	Evelyn D. Trottier

# Business Meetings

## Séances de travail

Business meetings are committee activities or open forums not affiliated with the core conference program. Note: These meetings are usually for invited participants only. Meetings marked with an asterisk (\*) are open to all registered delegates. Voting privileges are reserved for section members at all section meetings.

Les séances de travail sont des activités des comités et des discussions ouvertes qui ne font pas partie du programme principal du congrès. Note : Ces réunions sont généralement réservées aux participants invités. Les séances suivies d'un astérisque (\*) sont ouvertes à tous les congressistes inscrits. Lors de toutes les réunions des sections, les droits de vote sont réservés aux membres de la section.

# CPS Annual Conference 2024

## Congrès annuel 2024 de la SCP

Hyatt Regency Vancouver  
Hôtel Hyatt Regency Vancouver

**VANCOUVER**  
JUNE 6-8  
DU 6 AU 8 JUIN **2024**

### Call for Proposals and Abstracts!

The CPS Annual Conference 2024 welcomes the submission of proposals (seminars and workshops) and scientific abstracts (platforms and posters).

Deadline for seminars and workshops: **September 15, 2023.**

Deadline for posters: **November 1, 2023.**

#### Format:

- Seminars cover critically chosen, innovative subjects.
- Workshops approximate real-life situations, allowing participants to demonstrate their application of knowledge and clinical reasoning.
- Posters are pictorial presentations of new paediatric research, clinical cases and resident advocacy projects.

The process for submitting a proposal electronically will be available in August 2023 at [www.cps.ca](http://www.cps.ca).

### Appel à propositions et à communications!

Nous acceptons les propositions de séminaires, d'ateliers et de communications scientifiques (plateformes et affiches) en vue du congrès annuel de la SCP 2024.

Date limite pour les séminaires et les ateliers : **le 15 septembre 2023**

Date limite pour les affiches : **le 1<sup>er</sup> novembre 2023**

#### Structure :

- Séminaires sur des sujets novateurs et bien choisis
- Ateliers qui ressemblent à des situations réelles et permettent aux participants d'appliquer leurs connaissances et leur raisonnement clinique
- Séances d'affiches sous forme de représentations graphiques de nouvelles recherches en pédiatrie, de cas cliniques et de projets des résidents pour la défense d'intérêts des enfants.

Il sera possible de se soumettre au processus de soumission des projets par voie électronique dès le mois d'août 2023, à [www.cps.ca](http://www.cps.ca).
